FOUR PERSONS DIE IN IRISH DISORDERS

Shipyards Workers Are Attacked While Riding Home on Tramcars

27 OTHERS ARE WOUNDED

Belfast, May 25.—The total casualties in the series of disorders which swept Belfast during the night were placed at four dead and twenty-seven wounded today. The wounded included only those cases treated in hospitals.

It is unofficially declared that the curfew law will probably be extended to include the country districts.

The Carnegie Library in the heart of the East Belfast district was set afire last evening. A mob attacked the fire brigade, and also the police, who tried to protect the firemen.

Early yesterday night armed men boarded a tramcar in a lonely part of Falls road, and while two covered the crew with their weapons the others set fire to the tramcar with coal oil.

A workman pluckily boarded the tramcar and pulled the trolley, thus stopping it. Residents of the district extinguished the flames.

A grave-digger at Telford, while proceeding to his home from the cemetery, was attacked by a gang and shot dead. While police were returning from Dalymount from operations in the district they were ambushed near Parkmore. A fierce fight ensued and two of the attacking party were shot and killed.

A young married woman standing in the doorway of her home in the east end of the city was struck by a bullet and dangerously wounded.

Among the features of Minister of Finance's financial statement to the Ulster Parliament today was that the Government's balance sheet showed a surplus of £40,000. He said no new taxes would be imposed and that the Ulster factory insurance had been received from the British Cabinet regarding the equipment and upkeep of the Ulster special constabulary.

Dublin, May 25.—By A. P.—Eamon de Valera received a number of newspapermen today and appealed to them for full publicity of the Ulster activities on the ground that exposure of the facts to the world was the way to peace.

There was a vicious circle of outrages and reprisals, the Republican leader said. The Unionists were in a majority in the northeast, and he favored their having full local autonomy. He opposed continuing them, but was equally opposed to having the northern minority coerced, and said he would do all he could to prevent it.

The Catholic Bishop of Derry, while motoring from his residence to Moville, was held up by Ulster special constables yesterday. He was ordered to leave the car and was searched on the roadside, according to a Londonderry dispatch. The incident, it is asserted, has aroused great indignation.

The Labor Party will nominate seventeen candidates for the coming Irish elections. The candidates include James Larkin, the former head of the Transport Workers' Union, who recently was released from prison in the United States on a writ of habeas corpus.

Larkin was found guilty in 1920 of criminal anarchy and sentenced to a term of five to ten years in New York State Prison.

London, May 25.—By A. P.—Declaring that the Anglo-Irish treaty must be saved, today's newspapers express the suspicion that the agreement between Eamon de Valera and Michael Collins covers an intention to declare an independent republic.

The Times and the Daily Mail emphasize that Great Britain will never tolerate the separation of Ireland.

"The treaty," says the Times, "is the inevitable outcome of Ulster's rights as well as those of the rest of Ireland. It offers the only path to a settlement, and upon its preservation the dread issue of peace or war inexorably depends."

The Daily Mail says the Free State leaders ought to be warned that Great Britain is not going to be jockeyed into the acceptance of a republic of the Ulster. Elsewhere the refusal by the Ulster Premier, Sir James Craig, to participate in the boundary commission provided by the treaty is sharply criticized.

The Washington Gazette warns Sir James that "it would be more folly for the English Ministers to insist that Collins adhere to the treaty if they allow Sir James to go. The Craig management, admittedly, leaves every chance for peace in Ireland, and cannot be allowed to remain the last word."

STOPS OPEN-AIR MEETINGS

Sheriff Issues Order to Striking Coal Miners in Fayette County, Uniontown, Pa., May 25.—By A. P.—Minor disorders in the coal strike here were ended by Sheriff J. J. Shinn, who issued an order, signed today, prohibiting open-air meetings of striking coal and mine workers. Indoor meetings can be held as long as the sheriff is satisfied that the meetings are peaceful and do not disturb the neighborhood.

FIRES AT BANDITS WHO ROB HUSBAND

Mrs. Margaret Graf, Egg Harbor, Discharges Shotgun at Men Fleeing in Auto

WOUNDED ONE, SHE THINKS

Special Dispatch to Evening Public Ledger. Egg Harbor, N. J., May 25.—Mrs. Margaret Graf, fifty-six years old, came to her husband's aid with a double-barreled shotgun at 1 o'clock this morning when he was held up in his garage by two armed men.

The robbers escaped, but she ran out on the road and discharged both barrels into the rear curtain of their car, and thinks she may have wounded one of them.

The same men are believed to have been members of a party of four who robbed a farmer named Polk as he was walking home along the New Gretna road.

Frank Graf operates the Cologne Garage, three miles beyond Egg Harbor City, and lives there. The two men drove up in a sedan of expensive make, and asked for five gallons of gas. After this had been put in the tank they demanded a quart of oil.

When Pike returned with the oil one of the men drew a pistol and demanded all his money. They got more than \$200.

Mrs. Graf, in an adjoining room, was sitting up waiting for her husband to close the garage. The door was open a trifle, and, unseeing herself, she saw the men holding her husband up.

Mrs. Graf crept upstairs noiselessly and got her husband's shotgun. When she returned with it the thieves were in their car. They threw in the clutch and the machine fairly jumped away when Mrs. Graf ran out with the shotgun. She raised the weapon to her shoulder and pulled both triggers. The heavy double charge of bird shot struck the back curtains of the car.

Her husband ran to a neighbor's house a quarter mile away, as he had no machine in the garage. The neighbor got out his car and the couple speeded into Egg Harbor and spread the alarm. A force of city patrolmen and State troopers searched all roads.

Temper Campbell, who took the New Gretna road, found a farmer in the neighborhood named Polk, who complained of having been robbed by two of four men in an automobile. Polk lost a gold watch and some cash. The police believe the robbers gang consisted of four men, two remaining on guard while Graf was robbed in his garage.

GERMANY PLEASUED WITH CONFERENCE OF BANKERS

French Maintain Interest Should Be as Low as Possible. Paris, May 25.—By A. P.—Optimism over the progress being made by the International Bankers' Conference considering the German financial situation, with a view to an international loan, was voiced today by Karl Bergmann, the German representative.

It is turning out just as I expected," he said in expressing pleasure over the outlook.

One of the first points to be settled is the amount of the loan to Germany, which is considered a prime essential to any real settlement. This, according to the Journal, falls within the special province of J. P. Morgan, Sir Robert Kildersley, British delegate, and Dr. Vissering, representing Holland.

These three will also have to resolve to what extent Germany will participate in the loan. For it is felt that the success of Germany is to get part of the loan to help in her economic restoration, she should be required to invest therein some of the foreign currency, estimated at \$200,000,000 and gold marks, which she possesses abroad.

As to the rate of interest, the French maintain that it should be fixed as low as possible, so that this charge will not be too heavy a burden on the Germans, and thus give them an opportunity to say they have nothing left with which to pay their war reparations.

JAIL SENTENCE IN FRANCE

New York Woman Told to Leave Country Because of Shooting. Paris, May 25.—By A. P.—Mrs. Fanny Burke, who on the evening of May 13 fired two shots from a revolver at the clerk of the Hotel Terminus, yesterday was sentenced to one month in jail. The sentence of imprisonment was suspended under the proviso that Mrs. Burke would leave France. This she promised to do immediately.

The French court in its courtesy permitted an American attorney who was not admitted to practice in the French court to supplement the address of Mrs. Burke's French attorney.

A dispatch from Paris May 23 announced that Mrs. Burke, who had been staying at the hotel two days and who was declared by the hotel officials to have been requested to leave because of alleged queer actions, fired twice at the clerk but failed to hit him. The woman told the police she was forty-two years old, that she was born in Russia and that she was the wife of John Burke, a decorative artist, of New York City.

EMBEZZLING TELLER REVEALS HIS METHOD

But Plan by Which \$200,000 Was Taken From Bank Kept Secret. Coatesville, Pa., May 25.—Four days' confinement in jail caused Raymond C. Newlin, twenty-eight years old, revealing teler, to break down today and lay before investigators the inside story of how he was able to embezzle upward of \$200,000 from the National Bank of Coatesville during the last four years and escape detection, according to officials.

As a result of repeated questions by Banking Examiner Chapman and his attorney, William Tregay, Newlin finally agreed to make a clean breast of his alleged delinquency. His plan of "covering up," while described as quite simple and one never before encountered by examiners, will not be made public, it was announced. To do so, it was said, might invite imitators.

INCENDIARY IN LANCASTER

Starts Three Fires. Then Turns in Alarm. Police Claim. Lancaster, May 25.—After city firemen had been called out three times within two hours on alarms in the central business section last night police arrested a man who they declared was planning to start another blaze. He gave his name as August Pelletier, twenty-eight, of Salem, Mass.

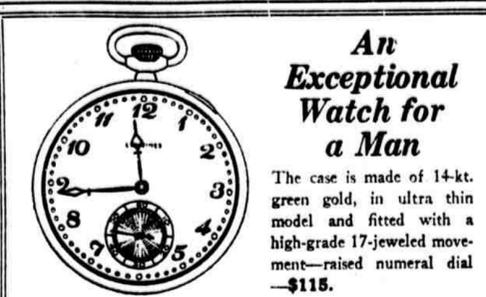

All of the fires were in hallways and rooms of buildings on Queen and Orange streets accessible from the street. None of them did any damage, as they were poorly planned. It is charged that this man, who arrived in the city yesterday, would start a blaze then turn in an alarm at a box on a nearby corner.

The man was unable to give a coherent account of himself or why he stopped off here en route from Cincinnati to Salem. He is held for further investigation.
